

Top Right Corner

Notes from our session where we confirmed our requirements with the client

(Richard)

- Avoid design decisions - allow flexibility - therefore removed description of dice game and mention of credits, how final score is calculated etc
- Reference the brief - for rationale - if had to disambiguate - explain how done
- Say how test
- Changes to auction - between market, human player, AI
- Plots of land - don't fix / allow to produce only one resource
- Reference previous interview for rationale
- Can have more detailed explanations of stuff in a document on the website if can't fit inside the page limit
- Order of events - reference brief
